

***MEMORANDUM FOR RECORD***

**SUBJECT:** Initial Lake Group Meeting (Leech Lake), Upper Mississippi River Headwaters Reservoir Operations Plan Evaluation (ROPE) Studies

1. On Wednesday, 11 July 2002 beginning at 9:45 am, the subject meeting was conducted at Margarita Mulligan's, near Huddle's Resort on Leech Lake. Participants at this meeting included interests from the MN DNR, MPCA, USFS, Leech Lake Association, Cass County, TCLLWP, SWCD – Cass County, local resorts, and the Corps of Engineers – Mississippi Headwaters Project.
2. This meeting focused on providing a short overview and status of the ROPE, a chance to discuss the roles of this group and others being formed, and to define ways to organize and mobilize this group. See the attached agenda and handouts that were used at the meeting for details.
3. Key points and discussions that occurred during this meeting are summarized as follows:
  - Each member of the group took the opportunity to introduce him or herself and offered their particular interest or interests they represented. The combined topics included: environmental, pollution, water quality, shoreline issues, erosion, development, vegetation, wildlife, recreational boating, fishing and hunting, preservation, conservation, and tribal interests.
  - The impacts of operations on various organizations and interest groups in the area were explained. It was stated that many people are not aware of the dam operations on Leech Lake, and why the Corps operates Leech Lake the way it does. When it comes to operations, the need for others to understand the concerns both upstream and downstream are great.
  - The group listed other potential interest groups that were not represented at the meeting. After compiling a list, each member volunteered to get contacts for specific interest groups. The following list shows each group member responsible for his or her respective contacts.

GROUP	GROUP MEMBER RESPONSIBLE	CONTACT
Ducks Unlimited	Don Pierce	
MN Waterfowl Assn. - Remer	Don Pierce	
City of Walker	Jim Dowson	Steve Michael
Sky Blue Water Joint Powers Brd.	John Steward	
North Star Sportsman's Club	Jerry Demars	Sharlene Moore
Muskies Inc.	Jason Hauser	Dan Dean
LL Chamber of Commerce	Jim Dowson	
MHB	USFS - Dave Morley	Jane VanHunnik
Cass County	Jim Dowson	
Realtors	COE	John Ringle (LL Realty)
DNR Aquatic Vegetation Specialist	John Steward	Donna Proberg
MN Waterfowl Assn. - Walker	Jerry Demars	
LL Guide Coalition	Roman Frigge	
LL Tourism Bureau	Roman Frigge	
Assn. of Cass County Lakes	Gary Lyall	Fred Bliss
Cass Lake Group	Brenda Glenn (per Dave Morley)	
Sailboat Groups	John Ringle	Shores of Leech Lake Yacht Club (Mitch Loomis)
Snowmobile Clubs	Jim Dowson	Leech Lake Riders
Local Press	Jerry Demars	Walker Pilot Joe Sherman Dean Morrel Bemidji Cass Lake Remer Longville
LLA	Jerry Demars	
MN Trappers Association	Don Pierce	
City of Federal Dam	Timm Rennecke	Jim Campbell
Property Owners Groups	Jim Dowson	Oak Point (Jack Hacking) Lakewood Acres (Les Kleinke) Bear Island Shingobee Island
Cass County Assn. of Townships	Jim Dowson	
Cass County EDS	Jim Dowson	

- There were questions concerning the current operating plan, and if it took into account the concerns for tribal trust, wildlife, erosion, shoreline issues, etc. What changes would be made if these concerns are already being met, and will they be met under a new operating plan? It was

explained that these issues indeed are considered under the current operating plan, however, the plan is nearly forty years old and many of these concerns have changed over this time. The study will identify the problems and identify solutions based on facts and technical data.

- It was stated that this group needs to convince people to get involved in this study and to provide their input. The following are requested products that will ease in this process.
  1. Gary Lyall (TCLLWP) would like 3x5 inch cards to distribute to interested parties. These cards should contain pertinent information such as:
    - a. What the ROPE is
    - b. The timeline of the study
    - c. What the elements are and why they are important
    - d. The potential changes that could be made due to the study
  2. Jim Dowson (Cass County Commissioner) stated that a fact sheet containing basic information on our current operating plan would be beneficial in creating awareness among others. This fact sheet would also stress the importance of the study in regards to future operations. The current operating plan summaries should be posted on the ROPE web site.
  3. John Steward (MN DNR) requested that a flow chart be created showing where each member of the group fits in and what their roles are.
  4. John Ringle (LLDRM) stated that the group should include Gina Papsadora, cultural specialist for Leech Lake and Winnie, as a group member. She works out of the same office as John Ringle, and can be reached through his phone number.
- Volunteer / Observer roster sign-up sheets were passed through the group. The following lists show the members who committed to being an observer or volunteer. The concept of volunteer staff gauge readers was also addressed to the group.

**Subject: Initial Lake Group Meeting List for - Leech Lake Group**  
**RE: Upper Mississippi River Headwaters ROPE Studies**

**Observers Roster**

<u>Name</u>	<u>Organization</u>	<u>Address</u>	<u>Telephone</u>	<u>E-Mail</u>
